

ASYNCHRONOUS UNCONSCIOUS RETRIEVAL IN A
NETWORK OF INFORMATION APPLIANCES

Inventors:
Derek E. Poppink
Jonathan J. Hull

Background of the Invention

Cross-Reference to Related Applications

[0001] The present application claims priority from provisional U.S. Patent Application Serial No. 60/322,518 for "Asynchronous Unconscious Retrieval in a Network of Information Appliances," filed September 14, 2001, the disclosure of which is incorporated herein by reference.

W

Field of the Invention

[0002] The present invention is related to automated information retrieval, and more particularly to systems, methods, and computer program products for asynchronously retrieving relevant information from a number of sources and presenting the retrieved information to an end user in a manner that avoids the need for conscious effort by the end user.
